Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

SIR:

Pursuant to the terms of 37 CFR §§1.56, 1.97 and 1.98, and in compliance with the guidelines for Information Disclosure Statements set forth in M.P.E.P. §609 and in the Commissioner's Notice of April 20, 1992 (published in the Official Gazette of May 19, 1992, 1138 TMOG 39-43), and supplemental to the Information Disclosure

Statement filed by applicant on March 10, 2006 (with a certificate of mailing dated March 6, 2006), applicant is submitting herewith, on the attached Form PTO/SB/08A (1 sheet), a listing of two (2) additional documents, both of which are foreign patent documents, designated AAB and AAC, respectively, containing information for consideration by the Examiner, together with legible copies of documents AAB and AAC.

Since the listed documents submitted herewith are written in the English language, no concise explanation of their relevancy is required, as pointed out in 37 CFR §1.98(a)(3)(i) and in section A(3) of the above-mentioned Commissioner's Notice.

Inasmuch as the subject application has not yet received a first Office Action on the merits, the information being presented herewith is believed to be timely filed pursuant to 37 CFR §1.97(b)(3); moreover, no fee is deemed necessary in connection with the filing of this communication.

With regard to the Information Disclosure Statement filed by applicant on March 10, 2006 (with a certificate of mailing dated March 6, 2006), attention is called to the fact that some of the documents cited therein by applicant are references which were also cited in two Examination Reports, one dated February 25, 2003 and the other dated January 23, 2004 (copies of which are appended hereto for the Examiner's convenience), rendered by the U.K. Patent Office in connection with applicant's

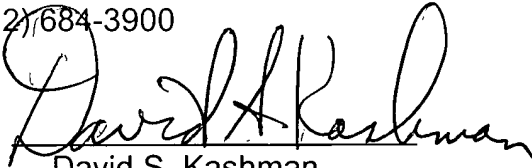

counterpart British patent application.

Like the information presented previously, none of the information presented herewith is believed to be adverse to the patentability of the present invention. Nevertheless, it is requested that this information be made of record and considered in the examination of the above-identified patent application.

Respectfully submitted,
